

CanonicalTags GraphQL Query :

1.Category page query :

```
query CategoryCanonicalUrl {  
  categoryCanonicalUrl(category_id: "11") {  
    url  
  }  
}
```

Output:

```
{  
  "data": {  
    "categoryCanonicalUrl": {  
      "url": "http://127.0.0.1/php83/m248/pub/men.html"  
    }  
  }  
}
```

If no url set for specific ID:

```
{  
  "data": {  
    "categoryCanonicalUrl": {  
      "url": "No canonical URL set"  
    }  
  }  
}
```

If configuration's field (Use Canonical Link Meta Tag For Categories) is disable :

```
{  
  "errors": [  
    {  
      "message": "Please enable Canonical Tags module.",  
    }  
  ]  
}
```

```

        "locations": [
            {
                "line": 2,
                "column": 5
            }
        ],
        "path": [
            "categoryCanonicalUrl"
        ],
        "extensions": {
            "category": "graphql-input"
        }
    }
],
"data": {
    "categoryCanonicalUrl": null
}
}

```

If extension is not enable :

```

{
    "errors": [
        {
            "message": "Please enable Canonical Tags module.",
            "locations": [
                {
                    "line": 2,
                    "column": 5
                }
            ],
            "path": [
                "categoryCanonicalUrl"
            ],
            "extensions": {
                "category": "graphql-input"
            }
        }
    ],
    "data": {

```

```
        "categoryCanonicalUrl": null
    }
}
```

2.Cms page query :

```
query CmsPageCanonicalUrl {
  cmsPageCanonicalUrl(page_id: "1") {
    url
  }
}
```

Output:

```
{
  "data": {
    "cmsPageCanonicalUrl": {
      "url": "http://127.0.0.1/php83/m248/pub/about-us"
    }
  }
}
```

If no url set for specific ID:

```
{
  "data": {
    "cmsPageCanonicalUrl": {
      "url": "No canonical URL set"
    }
  }
}
```

If extension is not enable :

```
{
```

```

"errors": [
  {
    "message": "Please enable Canonical Tags module.",
    "locations": [
      {
        "line": 2,
        "column": 5
      }
    ],
    "path": [
      "cmsPageCanonicalUrl"
    ],
    "extensions": {
      "category": "graphql-input"
    }
  }
],
"data": {
  "cmsPageCanonicalUrl": null
}
}

```

3.Product page query :

```

query ProductCanonicalUrl {
  productCanonicalUrl(product_id: "1") {
    url
  }
}

```

Output:

```

{
  "data": {
    "productCanonicalUrl": {
      "url": "product-url"
    }
  }
}

```

```
}  
}
```

If no url set for specific ID:

```
{  
  "data": {  
    "productCanonicalUrl": {  
      "url": "No canonical URL set."  
    }  
  }  
}
```

If configuration's field (Use Canonical LinkMeta Tag For Products) is disable :

```
{  
  "errors": [  
    {  
      "message": "Please enable Canonical Tags module.",  
      "locations": [  
        {  
          "line": 2,  
          "column": 5  
        }  
      ],  
      "path": [  
        "productCanonicalUrl"  
      ],  
      "extensions": {  
        "category": "graphql-input"  
      }  
    }  
  ],  
  "data": {  
    "productCanonicalUrl": null  
  }  
}
```

If extension is not enable :

```
{
  "errors": [
    {
      "message": "Please enable Canonical Tags module.",
      "locations": [
        {
          "line": 2,
          "column": 5
        }
      ],
      "path": [
        "productCanonicalUrl"
      ],
      "extensions": {
        "category": "graphql-input"
      }
    }
  ],
  "data": {
    "productCanonicalUrl": null
  }
}
```
